# PROSPECTUS 2024

## CHAIRMAN'S MESSAGE

### **Why I left my 30 years job and came back to my Hometown-Bhagalpur to start a school**

After a fulfilling 30-year career as a Senior Government Officer in a Fortune Global 500 Organization, I decided to leave my well-settled life in NCR and return to my hometown, Bhagalpur. Despite enjoying a quality life and extensive global exposure, I felt a deep seated desire to contribute to society through quality education. Despite a successful career, I yearned for fulfillment and satisfaction that my job couldn't provide. My emotional connection to Bhagalpur, where I completed my schooling and engineering, fuelled my desire to give back to the place I called home. With academic excellence and a passion for teaching, the dream of opening my own school persisted.

Taking early retirement in 2023, I returned to Bihar to bridge the gaps in school education. Witnessing students rushing between coaching centres in Bhagalpur, I identified the need for a shift back to a more holistic and effective education system, reminiscent of the quality education experienced in the region four decades ago.

# ABOUT THE SCHOOL

Priyam Global School, Bhagalpur, Bihar situated in its own newly constructed Building in a cool, silent, pollution free area very much suitable for academic purpose. It's Founder Chairman has planned it to cater to the needs of many students of the town from its present campus. It's a co-educational English medium Day school with plans for affiliation to Secondary and Senior Secondary in future in it's other Campus. The school shall take care to nurture talent and potential of every single pupil for holistic development. Through a well tailored curriculum, school shall stay committed to engaging, exploring and empowering learners to make them realize their inherent talent in a safe and supportive environment. We shall not only focus on academic aspect but also on extracurricular activities to discover latent quality and calibre for further improvement and refinement. Teachers as knowledge managers , co-learners ,motivators and creators of learning experience on and off the campus shall keep learning and equipping themselves with better techniques and tools for effective delivery of curriculum to meet learning objectives and challenges.

# VISION & MISSION

## VISION

To create Global Citizens of the 21st century who can encash the immense number of upcoming opportunities which is just not limited to choosing Conventional careers like becoming a Bureaucrat, Engineer, Doctor, Lawyer, etc. They can do freelancing, become an influencer, content creator and use the internet as a stage. Hence, Priyam Global School was born with its prime motto of affection, innovation and leadership to develop an environment for the new generation children to learn and grow. We would be following new methods of teaching to impart knowledge and creativity among the children under the new CBSE guidelines. Priyam Global School will give your child a world of opportunities to become a better person and choose a career they love so they do not just end up rich but also a happy and a satisfied person.

## MISSION

Priyam Global School is born with a mission to reach different strata of the Society and provide them with a Better Education in the best possible way encompassing Field Visits, Hands on Exposure in a conducive joyful environment. We plan on reaching students belonging to families with different financial conditions and providing them with a platform where they can learn and grow freely. Our mission is to develop a learning environment where each child is unique and is not to be judged according to his/her background and make them realize of their immense potential.

# SCHOOL CURRICULUM

**MATH LAB** - The apt place to experiment & explore Math Practice is a programme designed to improve students' conceptual understanding of Math through commonly available everyday material. This hand-on involvement encourages divergent and lateral thinking and therefore, innovation in daily life.

**DIAGNOSIS** - Helps both students and parents achieve a better understanding of learning need. The diagnostic programme identifies academic strengths and weaknesses. The school and family then work together to bridge the gap.

**ENGLISH LAB** - Platform to learn comprehensive & interactive English. Written Expression is a programme specially designed to develop writing skills, encouraging students to collaborate and create original texts, to critically appreciate them and to explore writing as a hobby and possible career options. English being the easiest language and most career oriented language, command over this shall help students a lot in their growth in life.

**GRAMMAR PROGRAMME** - Grammar Programme uses a natural learning process to improve grammar skills. It shall comprise worksheets, exercises, speech activities, listening, reading and conversation to help students master the English language.

**LEARNING IMPROVEMENT PROGRAMME** - The learning Improvement Programme includes board exam preparation for students of higher classes, especially, in cases of special need.

**ENGLISH READING** - Books Campaign is designed with a special agenda to encourage students to read more. The campaign shall have specific guidelines to ensure the creation of a universal reading culture. This shall help students a lot as in this digital era, book reading has taken a back seat.

**VISUAL AND PERFORMING ARTS** - School shall offer training in contemporary dance, western jazz and other dances based on student requirements. Similarly, children shall have access to music classes which shall include the privilege of being taught by experts in the field.

**SCIENCE EXPERIMENT AND APPLICATION** - Aimed particularly at students from grades 1-5, the science experiment programme shall provide kits that can be made into working models. The approach is hand-on and activity based, allowing students to acquire a deeper understanding of the subject.

# FACILITIES

## Indoor Games:

Carroms, Ludo etc shall be available.

## Health and Safety:

It shall comprise team of Principal and Teacher to regularly monitor the health and safety of the students. Feedback shall be taken from the parents for the same.
