CHAIRMAN'S MESSAGE

Why I Left my 30 years Government job and came back to my Hometown-Bhagalpur to Start a school

After a fulfilling 30-year career as a Senior Government Officer in a Fortune Global 500 Organization, I decided to leave my well-settled life in NCR and return to my hometown, Bhagalpur. Despite enjoying a quality life and extensive global exposure, I felt a deep seated desire to contribute to society through quality education. Despite a successful career, I yearned for fulfillment and satisfaction that my job couldn't provide. My emotional connection to Bhagalpur, where I completed my schooling and engineering, fuelled my desire to give back to the place I called home. With academic excellence and a passion for teaching, the dream of opening my own school persisted.

Taking early retirement in 2023, I returned to Bihar to bridge the gaps in school education. Witnessing students rushing between coaching centres in Bhagalpur, I identified the need for a shift back to a more holistic and effective education system, reminiscent of the quality education experienced in the region four decades ago.
